50X1-HUM

Subject: Incline Changes on the Rail-  
road Line Ljubljana-Kamnik

Since part of the railroad line Ljubljana - Kamnik was reconstructed, some incline changes are to be noted between the stations of Lomiale and Jarje. Accordingly to those incline changes, some loading adjustments had also to be effectuated.

Consequently, the Ljubljana Railroads Direction has established the adjustments in question, which will be published in the annex of the railroad schedule as well as in the Railroad Schedule.
